

Covid Guidelines for Ticketing

JAG Productions has implemented numerous safety precautions to ensure the experience is as safe as possible for our patrons and artists. These precautions include:

- Requiring everyone in the building to be masked at all times except for the actors while on stage;
- Use of provided hand sanitizer and hand washing will be highly encouraged while on site;
- Mandatory proof of full COVID-19 vaccination for all audience members prior to entering venue;
- Weekly COVID-19 testing of artists.

By booking tickets to an in-person production or event, you acknowledge and agree that your participation in in-person JAG Productions activities comes with inherent risks, and that despite the company's reasonable efforts to mitigate such dangers, your participation may result in exposure to COVID-19.
